

Woodlands Family Fun Day lights up winter!

Lend Lease's Woodlands community turned its picturesque District Park into a winter wonderland on Saturday 23 July, playing host to its eagerly awaited Family Fun Day, just one of the many winter events it has hosted.

With over 4,000 visiting the afternoon event, it was a great opportunity to showcase just why Woodlands is such a special place to live and provide the community with an opportunity to enjoy a free and fun day out for the whole family.

The free events included animal farm, jumping castle, Ferris wheel, merry go-round, pony rides, face painting and more.

From the cheer of the crowds the star attractions on the day were clearly Po from Kung Fu Panda 2 and Care Bears, who performed shows in front of an excited crowd of thousands. The day ended with spectacular fireworks finale, the perfect end to the day.

Project Director Greg Tupicoff said the Woodlands Family Fun Day Event goes to the heart of what it is like to be part of a Lend Lease Community.

“Woodlands is truly a special place. With community groups and regular activities such as fitness sessions, there is a real connection between residents at Woodlands. We hold events like these because people enjoy being part of the community. We also provide lots of open spaces, parks, bicycle tracks and pedestrian paths.”

Mr Tupicoff urged visitors to join residents at the community events so they too can see what Woodlands is all about. “While you are here you would be most welcome to visit our display village, the largest in Logan.”

Woodlands is an Urban Development Institute of Australia award-winning community, claiming the 2010 Queensland State President's Award, Queensland's Best Residential Subdivision and Queensland's Best Affordable Housing Awards.

Upon completion, the 137 hectare Woodlands community in Queensland will be home to more than 3,500 people.
